

Minimum submission standard for demolition permits:

For the complete, partial, or exploratory demolition of a structure.

This notice is for guidance. Not all items below will apply to all projects. If you are unsure which apply, call us.

- The Building Official may require visitation of the site prior to permit issuance to verify existing conditions
- All plan submissions shall be scaled.
- Utility disconnections shall be confirmed with written release from all utility providers or agencies stating that their respective service connections and appurtenant equipment, such as meters and regulators, have been removed or sealed and plugged in a safe manner. Such utility providers and agencies may include:
 - water
 - electric including solar
 - gas
 - sewer
- Rodent and similar vermin shall be eradicated from affected structures and affirmed by a qualified pest control agency.
- Submissions must include
 - Evidence of Asbestos abatement (**permit issued by Fire Department**).
 - Evidence of fire protection systems disconnection approval (**permit issued by Fire Department**) including fire alarms, sprinkler systems, risers, etc.
